

LUCAS NERI

DEVELOPER

PERSONAL PROFILE

Systems Development | Projects | Web Designer | Tests | Technologies | Support | Innovation | Systems |

I have experience working in the Technology area for 3 years and as a systems developer for 2 years

I have a multidisciplinary skill set that allows me to create solutions. I designed and developed web systems for thousands of people at EstrelaBet, Grupo SX and TicketClub.

I'm familiar to writing code in Vue, React, Javascript, Typescript, NodeJS, Golang, NextJS, JSX, and Python. I also use GIT, Markdown, Docker, Swagger, JiraSoftware, MongoDB, MYSQL, AWS, EC2, GooglePlay, Linux (Terminal) among others tools. My interests are, Web Systems, Development and Systems Analyst, because are the functions I performed during mt career

PROFESSIONAL HISTORY

Estrela Bet

Front-end Developer (may 2022 - present moment)

Analyze and develop systems projects, gather requirements, map processes and perform data modeling, in order to study and implement systems according to business rules. Analyze the performance of deployed systems, solve technical problems and prepare manuals

Main functions

- Project support
- Creating new Application
- Remake and Remaster Applications

Languages and Tools

- JavaScript, Typescript, Golang,
- Vue, React, Node, Next
- MYSQL, MONGO

Agile Methodologies

- Scrum
- Kanban

Communication Tools

- Discord
- Slack

Grupo SX

Frontend Developer (sep 2021 - may 2022)

Analyze and develop systems projects, gather requirements, map processes and perform data modeling, in order to study and implement systems according to business rules. Analyze the performance of deployed systems, solve technical problems and prepare manuals

Main functions

- Project support
- Creating new Application
- Remake and Remaster Applications

Full Stack Developer (june 2021 - sep 2021)

Web Designer, Developer and DesignerActivities: fullstack sites development, systems, maintenance, bug fixes, feature creation, improvements.

Main functions

- Project support
- Remaster Applications

Languages and Tools

- JavaScript, Typescript, Golang,
- Vue, React, Node, Next
- MYSQL, MONGO

Agile Methodologies

- Scrum
- Kanban

Communication Tools

- Discord
- Slack

PROFESSIONAL HISTORY

Trainee (aug 2015 - july 2016)

Study electronic and mechanical solutions by SENAI and help to repair some equipment

Main functions

- Repair electronic equipments

EDUCATIONAL HISTORY

UFMG - Federal University in Minas Gerais

Bachelor's in Mathematics

SENAI

Electronics Technician

CTPMMG - Militar School

High school

UPTIME

English School

UNA - University

Technologist Degree - Systems Development Analyst

PROJECT

Cryptography

Scientific research (july 2020- dec 2020)

Studies on the complexity, security, difficulties and effectiveness of cryptographic systems directed by Lucas Reis, PhD in Mathematics (UFMG)

Main functions

- Research and tests on prime numbers
- Algorithm development

CERTIFICATES

Udemy

Javascript and Typescript

Vue

Golang

Rocketseat

React and React Native

Front-end (advanced)

NEXTJS

Typescript
