Lucas Neri

Frontend Developer
Belo Horizonte

Summary

I'm a multidisciplinary software engineer with more than two years
of experience. As designing, developing, and supporting robust
applications, these are used by thousands of people, every day.

I normally work with Javascript, Typescript, Vue, React, Golang,
Mysql, MongoDB and Docker, but I have also experience with
Python. My interest areas are Distributed Systems, Networks, and
Operating Systems.

I'm currently trying to improve, increasing knowledge about software-
defined networks and fast packet processing technologies

You can see some of my work at lucasneri.com
